INTERESTED DOMAIN

Interested Domain: Full-Stack Development (JAVA)

EDUCATION

SES's R. C. Patel Institute of Technology

B. Tech in Computer Engineering, CGPA: 8.23/10

S. S. M. M. Jr. College

12th (HSC), Percentage: 69.33%

Sharda English Medium School

10th (SSC), Percentage: 86.80%

Shirpur, Maharashtra

Jul 2023 - Present

Pachora, Maharashtra

2023

Pachora, Maharashtra

2021

TECHNICAL SKILLS

Languages: Java, Python, C

Frameworks: Spring MVC

Database: MySQL, Django

Tools: Git, GitHub, VS Code, Eclipse

PROJECTS

Disaster Relief: Emergency Aid Coordination | *Java Project* | JSP, MySQL

- System designed to coordinate emergency aid during disasters by connecting victims, volunteers, and donors. It enables real-time disaster reporting, resource distribution, and communication to ensure quick and organized relief efforts.

AgroMart: Farm Equipment Rental System | *Java Project* | Java, Spring MVC, JSP, MySQL

- A Spring MVC and MySQL-based web application that connects farmers and vendors for renting agricultural equipment. It includes role-based access (Admin, Farmer, Vendor), equipment listings, booking management, and secure session-based authentication.

RoomFinder: Student Room Rental System | *Personal Project* | JSP, MySQL

- A web application that helps students find nearby rental rooms and allows owners to list available accommodations. Features include user authentication, room search and filtering, booking requests, and an easy-to-use interface for both students and owners.

TRAINING & WORKSHOPS

Java Development Training

2025

R3 SYSTEMS Pvt. Ltd.

- Completed training in Core Java, Advanced Java, JSP, and Spring MVC (Beginner).
- Developed backend projects including **Disaster Relief** (Emergency Aid Coordination) and **AgroMart** (Farm Equipment Rental System).

Nodevember 3.0 Workshop

2025

Akatsuki Coding Club, RCPIT

- Completed a 5-day Node.js backend development workshop covering MVC architecture, Express.js, Postman API testing, MongoDB, and AI API integration.
- Developed the backend for **Study-Geni**, an online bookstore application.

React.js Workshop

2024

Akatsuki Coding Club, RCPIT

- Completed a 4-day workshop on React.js focusing on component-based development and state management.
- Built interactive user interface components using modern frontend development practices.

EXTRA-CURRICULAR ACTIVITY

Smart India Hackathon: Participant in SIH 2025

Converges: Participant in Converges'25 Animeverse and Converges'26 MarvelX

MindSpark'25: Participant in (Code Junkie, Puzzler, Googler), COEP
